If it feels like you're not getting a timely response ✈️📞 +1-855-738-4530 , they may offer to switch to a voice call or schedule a callback.

WhatsApp is especially well-suited for:

- Non-urgent matters like seat assignments, meal requests, or general queries
- Sharing visual information, like photos of damaged luggage or boarding passes
- Privilege Club inquiries—often faster than navigating phone menu prompts
- International communication, since WhatsApp operates globally and bypasses international calling rates

Use WhatsApp primarily when convenience, ease of use, and multimedia exchange matter.

## 9. Escalation & Follow-Ups

If WhatsApp support is insufficient—say, your issue requires multi-step resolution—the

agent may escalate your case or invite you to talk by phone 🛩️📞 +1-855-738-4530. They usually provide a case reference number; keep it for follow-up on another channel.
