Here's the information currently available about a **Turkish Airlines Aguadilla Office** in **Aguadilla, Puerto Rico** — though it's important to note that publicly documented details are *limited and vary across online directories*:

Turkish Airlines – Aguadilla Office (Puerto Rico)

- **Location:** Aguadilla, Puerto Rico (listed generally with no detailed street address in city directories). The office reference is tied to the **Aeropuerto Internacional Rafael Hernández** area rather than a large standalone city sales outlet. (airlinesofficedesk.com)
- **Airport:** Rafael Hernández International Airport (FVW7+5Q3, Hangar Rd, Aguadilla, 00603, Puerto Rico) is frequently referenced as the location for aviation operations (though *Turkish Airlines passenger flights to/from Aguadilla are not currently scheduled* according to published destination lists, where the Aguadilla service appears inactive). (airlinesofficedesk.com)
- **Local Contact (Quoted by Some Listings):** 080005 01565 — cited as a **toll-free local contact number** associated with the purported Aguadilla office (though this isn't an official airline number from Turkish Airlines itself). (airlinesofficedesk.com)
- **Airport Desk Contact:** +1 787-890-6075 — noted as an airport contact where airline counters (including potential cargo/partner desks) can be reached at Rafael Hernández International Airport. (airlinesofficedesk.com)
- **Hours:** Listings state "Every Day: 24 Hrs," which reflects the sort of *general contact availability listed on travel office directories*, not an official Turkish Airlines published office schedule. (airlinesofficedesk.com)

Important Notes

- There is **no official Turkish Airlines city ticketing/sales office in Aguadilla publicly confirmed on the airline's own website** or through official regional airline directories; the details above come from third-party office directory sites and should be *verified by calling ahead or checking with the airline directly*. (airlinesofficedesk.com)
- If you are trying to **book, change, cancel tickets, or get customer support**, it's generally more reliable to contact Turkish Airlines' **U.S./global customer service lines** or offices at larger nearby airports (e.g., **San Juan Luis Muñoz Marín International Airport counters**) where the airline actually operates passenger flights. (book-ticket.com)
- Turkish Airlines flies from **San Juan (SJU)** and you can reach their airport counters there for reservations, baggage help, check-in, and other direct assistance. (book-ticket.com)
