

# 1-866-738-0706 Turkish Airlines Guayaquil Office

At this time, Turkish Airlines does *not* have a widely published standalone city office with a specific street address in *Guayaquil, Ecuador* — there isn't an official sales or customer service office listed in airline or airport office directories the way major carriers often do. Instead, passengers in Guayaquil typically access Turkish Airlines services through **airport contact points and centralized customer support channels** because in-person city ticketing offices are not documented for this location.

## Airport Contact Support (Guayaquil)

For travelers in **Guayaquil**, the most reliable in-person support related to Turkish Airlines operations is usually at or through the **José Joaquín de Olmedo International Airport (GYE)**. This is how most local flight and reservation support is handled for major carriers in the city, including code-shared flights and partner services servicing Turkish Airlines connections. The Guayaquil airport facilities are modern and handle international flights within Ecuador and the region. ([Wikipedia](#))

### General Airport Contact:

- **José Joaquín de Olmedo International Airport:** +593 4 2854 98 (general aviation contact for reservations/counter assistance; may connect you with airline counters) ([one.avisworld.com](https://one.avisworld.com))

At the airport ticket counters — when Turkish Airlines-associated flights or partner flights operate — staff can help with **check-in, boarding passes, baggage procedures, and travel-day assistance**.

---

## Turkish Airlines Customer Support

Because a dedicated office in Guayaquil isn't listed, it's generally recommended to use Turkish Airlines' official **global support channels** for reservations, ticket changes, cancellations, refunds, baggage enquiries, and other non-airport services:

- **Customer Service & Reservations:** Call the Turkish Airlines official contact channels through the airline's help center or global call centers — the main contact information and centralized customer support details are available on the **Turkish Airlines website "Get in Touch" page**. ([Turkish Airlines](#))
  - **Official Website:** <https://www.turkishairlines.com/> — Use features like **Manage Booking**, online check-in, flight status, and support resources through the Help Center. ([Turkish Airlines](#))
-

## What You Can Do

- **At the Airport:** Visit the airline (or partner) ticket counter at **José Joaquín de Olmedo International Airport (GYE)** on your travel day for check-in, boarding, baggage help, and immediate assistance. ([Wikipedia](#))
- **By Phone/Online:** Use the official Turkish Airlines support tools or the contact form via their website for **booking support, itinerary changes, cancellations, and general enquiries**. ([Turkish Airlines](#))
- **If Needed:** Consider contacting the **Consulate General of Turkey in Guayaquil** for visa/travel documentation support (consular services, not airline services). ([EmbassyPages](#))

---

 **Note:** Third-party directories sometimes list miscellaneous phone numbers (like 1-877-456-2077) claiming to be for a “Turkish Airlines Guayaquil Office,” but these are not officially confirmed by the airline and may be inaccurate or general ticketing call center numbers rather than a local office presence. Always verify with Turkish Airlines’ official website or published support contacts. ([wanderlog.com](#))

Would you like **contact numbers for Turkish Airlines reservations or the nearest in-person Turkish Airlines airport office on a regular route near Ecuador** (e.g., Quito or Panama City)? I can provide those too.
