

1-866-738-0706 Qatar Airways Stuttgart Office

Qatar Airways Stuttgart Office primarily refers to the airline's **service and ticketing presence associated with Stuttgart Airport (STR)** rather than a large standalone city sales office in central Stuttgart. Several travel office directories list the **contact details and location** connected to the airline's operations at **Stuttgart Airport, Flughafenstraße 32/Flughafenstraße 43, 70629 Stuttgart, Germany**, where Qatar Airways' ticket counters and customer service desks serve passengers on the ground. ([Airways Office Desk](#))

At this Stuttgart location, airline representatives assist travellers with a full range of Qatar Airways services, from **flight bookings, reservation management, ticket changes, cancellations and baggage inquiries** to **check-in, boarding pass issuance, and general travel support**. The airport counters typically operate in line with international flight schedules, with staff available **around the clock or according to departure/arrival times** for Qatar Airways flights. ([airlinesofficedesk.com](#))

For direct **contact outside of the airport counters**, the Stuttgart office is sometimes listed with customer service numbers such as **+49 69 1748 9914** for local enquiries during regular business hours (e.g., Monday–Friday **09:00–17:30**, closed weekends and public holidays), and the general support email **support@qatarairways.com** for reservations and assistance. ([airlinesofficedesk.com](#))

If you are arranging travel, it's important to note that day-of-travel support—including check-in, baggage drop, ticketing changes, and immediate flight queries—is best handled **directly at the Stuttgart Airport counters** (Terminal 1) where Qatar Airways operates its international services. The airport itself can also be reached at **+49 711 9480**, and staff there can often connect you to the Qatar Airways desk if needed. ([Airways Office Desk](#))

For **online or telephone support**, many travellers use Qatar Airways' **global customer service channels** via the official website [qatarairways.com](#), which provides access to managing bookings, checking flight status, live chat, regional contact numbers, and additional support tools. This is often recommended for more complex or non-urgent enquiries, especially outside local office hours. ([Airways Office Desk](#))
