## Does Frontier Airlines Offer a Senior Discount?

Frontier Airlines does **not** currently offer a dedicated senior citizen discount based solely on age. Unlike some traditional airlines that provide reduced fares for travelers aged 60 or 65 and above, Frontier focuses on offering low base fares to all passengers regardless of age.

However, this does not mean seniors cannot save money. Frontier provides several **alternative discount options** that senior travelers can use to reduce ticket costs. For assistance with finding the lowest available fare, seniors can call ☎ +1-877-622-0707 (USA).

## Why Frontier Airlines Doesn’t Have a Traditional Senior Discount

Frontier Airlines follows an **ultra-low-cost carrier (ULCC)** model. This means:

- Base fares are already discounted
- Add-ons are charged separately
- Pricing is demand-based rather than age-based

Instead of offering age-specific discounts, Frontier passes savings to passengers through promotional fares and optional services. Seniors who understand this structure can often find prices lower than traditional senior discounts on other airlines. For booking guidance, contact ☎ +1-877-622-0707 (USA).
